

## A-17 Psychoeducational Assessment

Special Education  
Advisory Committee  
(SEAC)

206A

At this workshop, parents will learn about the educational assessment carried out by a psychological professional (either within the TDSB or outside the TDSB), that examines the psychological aspects of learning such as intelligence, language and learning skills. This session will explain why it is done, what it means, how it can be used to direct learning and what the limitations are. A large percentage of the workshop will follow a question and answer format.

### Presenter

#### **Dr. Carolyn Lennox**

**Chief of Psychology Services in TDSB West Region, Learning Centre 4 - [Carolyn.Lennox@tdsb.on.ca](mailto:Carolyn.Lennox@tdsb.on.ca)**

Carolyn is a Clinical and School Psychologist. She received her M.Phil. in Clinical Psychology at the University of London, England and completed her PhD. in Clinical-Developmental Psychology at York University. Past work experience includes Manager of Clinical Services at the Geneva Centre and school psychologist with the Peel District School Board. A past board member of the Ontario Psychological Association (OPA), she is currently chair of the Liaison Committee between the Ministry of Education, Special Education Branch and the OPA as well as co-chair of a cross-sectoral group in Ontario concerning assessment and diagnosis of students with Learning Disabilities.
