A Workshop to Discuss School Councils: Problems and Solutions (High School & Middle School focused)

Parent Involvement
Advisory Committee
(PIAC)

204A

A facilitated workshop for all who have been involved in school councils at the Middle and High School levels, and who wish to exchange information and discuss what works and what doesn't. This sharing will hopefully be a means not only of exchanging ideas, but of identifying others in the TDSB parent community who have had similar experiences, so that an ongoing exchange of ideas may arise. It is hoped that all those who attend this workshop will intend to participate in the sharing of experiences, and in the discussion of what works and what doesn't. The discussion will not involve identification of individuals or schools. A thoughtful discussion, focusing on the best possible future for our school communities, will be energetically encouraged by the facilitators.
