EcoSchools: Supporting Healthy, Active, Safe and Sustainable School Communities

Environmental Sustainability Advisory Committee (ESAC)

200C

This workshop will introduce the TDSB's EcoSchools program and provide participants with an opportunity to explore the ways in which active, safe, and sustainable transportation (ASST) can be promoted within a school setting. This interactive workshop will explore ASST best practices and describe some of the resources and supports available to schools through the EcoSchools program.
