How School Councils Can Support Student Achievement

Parent Involvement
Advisory Committee
(PIAC)

202B

School Councils were established to support student achievement. What does that mean and how do Councils effectively engage parents in learning? This interactive workshop will take participants from the research to the reality of family engagement in our schools. Learn how to provide families with the support and tools they need to engage in their children's learning, while building meaningful partnerships with your school staff.

Presenter

Nancy Sands

Principal, With Equal Step - withequalstep@gmail.com

Nancy Angevine-Sands (OCT) is a family engagement specialist, facilitating solutions for educators, Councils and PICs looking to build meaningful home-school partnerships. Her extensive training includes the Harvard Graduate School of Education.
